Instructions

1. Please provide a brief title for the invention.
2. Please attach a description of the technology. At a minimum, this should be a one to two page summary description of the invention and why it is unique or represents an improvement over existing technologies. Preferably, the description will include one or more of the following: submissions for publication or published material; lab notes; presentations; diagrams/drawings; results and graphs.

The description allows our office to conduct a review of patentability and commercial viability. The more complete the description is, the more thoroughly we can conduct such a search. *Please feel free to include as much information as you like – it will help our office evaluate and understand your innovation.*

3. Please list all individuals who contributed to the concept and/or reduction to practice of the invention. The % contribution should be decided by and between the inventors and should total 100%. Please be sure to include information as to primary appointment and any other institutional affiliations for each inventor.
4. If the invention was conceived or reduced to practice with the use of federal or contract funds, please check the appropriate box and list the grant/contract number(s) in this space. Please also note if VA, MetroHealth, or UHCMC funds or facilities were used. ***This information is required for University compliance with Federal law and/or contract obligations.***
5. This refers to the use of University time and/or lab space in the development of the invention. Please check the appropriate box.
6. Please list all dates concerning conception and disclosure or anticipated disclosure of the invention.
7. Please attach a list of commercial entities that you think would be interested in licensing this technology to the disclosure. It is ok if you do not have such a list.
8. Optional Peer Review – if you would like a peer review of your work, please attach a list of colleagues who would be willing to perform such a review. Comments from your colleagues will be used to assist the office in its evaluation of your invention.
9. Signature – in order to process the invention disclosure, the signature of **all** named CWRU inventors and their complete information (address, and citizenship) must be provided. If an inventor is off campus or no longer with the university, a fax signature is acceptable. If an inventor is or was at an institution other than CWRU during their contribution to the invention, a signature is not required, but please include contact and citizenship information.

11. Witness Signature – this box is to help provide backing to establish a date of conception. It can be signed by a member of your lab or a colleague to whom you have explained the invention in detail, provided that this individual is not also an inventor named on this disclosure.
